Detailed Response Analysis

Q1. Describe a success and who else deserve it.

Response: In my previous organization we were working on an app development regarding the project and the credit going to our team lead but apparently it was not his credit actually it was deserved by our team members and completely by the prototype members so yeah at that time this was like false given credit to another person but apparently it was deserved by the internal candidates.

Humility

3.6/10

Computed as avg of 8 agents: Admitmistake, Blameshift, Bragflag, Feedbackacceptance, Knowitall, Learnermindset, Mindchange, Supportgrowth. Parser notes: Pronouns — I:0, We:1

Learning

3.6/10

Growth/learning terms mentioned

Feedback

Quantify the outcome (e.g., 'reduced cycle time by 30%' or '+3 pts CSAT'). Add one line on alignment with stakeholders and expectations. Invite feedback (e.g., 'Would value your feedback on any blind spots.').
